Milestone Interconnect compatibility

Milestone Interconnect™

Milestone Interconnect is a unique system concept that allows all paid Milestone XProtect® video management software (VMS), Milestone Husky™ NVRs and Milestone Arcus™ embedded appliances to be interconnected with Milestone premium software, XProtect® Corporate. Milestone Interconnect provides a cost-efficient and flexible way to gain central surveillance operation across geographically dispersed sites. The list below details which products can be interconnected with XProtect Corporate.

Product name	Required XProtect Corporate version	Product version	Supports cameras	Supports micro-phones	Supports speakers*	Inputs/ Outputs	XProtect sub-system event	Camera error events	A. Audio events B. Manual events / User defined events C. Generic events D. Analytics events E. Remote management
